The diagram illustrates a three-node database architecture for business applications. At the top, a white box labeled "业务应用" (Business Application) is connected to a central vertical line. This line branches out to three nodes: "ISS-EDB主" (ISS-EDB Master), "ISS-EDB备" (ISS-EDB Standby), and "ISS-EDB备" (ISS-EDB Standby). Each node is represented by a blue box with a yellow bar on the left. Below the nodes, there are three red boxes labeled "应用" (Application), "应用" (Application), and "应用" (Application), each connected to its respective node by a red line. The entire diagram is set against a light blue background with a grid pattern.
